

DUSK/DAWN + REMOTE Mode

Place the 3-way power switch in the right DUSK/DAWN + REMOTE position to activate and dispense Skeeter Defeater insecticide for 4 seconds automatically at dusk and dawn and to dispense Skeeter Defeater insecticide for 4 seconds by pressing the remote button. Place the Dispenser in the DUSK/DAWN + REMOTE position only when mosquitoes are present and return to the OFF or the REMOTE ONLY positions when mosquitoes are no longer present. Do not use the remote to activate the Dispenser more than twice per day when in the DUSK/DAWN + REMOTE mode.

- To avoid exposure to people, pets, or food near the Dispenser, turn Dispenser to Off Mode or Remote only mode if people, pets, or food are present during or near dusk or dawn.
- To avoid exposure to outdoor pets, use only in Remote Mode if pets live outdoors.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool area away from heat or open flame. Aerosols work best when can temperature is above 60°F. If temperature is below 60°F, store at room temperature until a temperature above 60°F is reached.

PESTICIDE DISPOSAL: Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not puncture or incinerate! Empty container by using the product in accordance with the label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partially full, contact your local solid waste agency for disposal instructions.

REGAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly before eating, drinking, chewing gum, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Do not contaminate water when disposing of equipment, wastewater, or rinsate. See Directions for Use for additional precautions and requirements. Do not apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas.

PHYSICAL OR CHEMICAL HAZARDS

Extremely Flammable. Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give ANY liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

For additional information, you may call CHEMTREC® at 1-800-424-9300, or the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

**Contains petroleum distillate.

EPA Reg. No. 1769-378-82768

EPA Est. No. 58996-M0-1

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional precautionary statements.

NET WEIGHT: 10 oz / 284 g

KILLS Clover Mites, Cluster Flies, Flies, Gnats, Mosquitoes, Mud Daubers, and Wasps.

FOR USE OUTDOORS AROUND Apartments, Campgrounds, Homes, Yards, Patios, Decks, Hotels, Motels, Restri, Schools, Supermarkets, Utilities, Warehouses and other Commercial and Industrial buildings.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS

- Follow the instructions included with the Dispenser (sold separately) to install Cylinder Refill Unit in Dispenser. Apply using the Skeeter Defeater™ Dispenser (sold separately).
- Use only with the supplied actuator or the Skeeter Defeater Dispenser (sold separately).
- Do not apply when people, pets, or food are present.
- Remove pets, birds, and cover fish aquariums before spraying.
- Do not spray on public, painted, or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc.

OUTDOOR TREATMENTS

Not for use in outdoor residential misting systems.

Directions for Hand Held Aerosol Application Outdoors

- Do not apply more than 1 time per day. Do not allow adults, children, or pets to enter the treated areas until sprays have dried. Do not apply directly to or near water, storm drains, or drainage ditches. Do not apply when windy. To prevent product run-off, do not over water the treated area(s) or apply prior to heavy rainfall.

GROUND APPLICATION (FLIES, GNATS, AND MOSQUITOES): Treat open areas near buildings and in campgrounds. Apply at a rate of 5 to 15 seconds per 1,000 ft². Apply in swaths across area to be treated. Allow treatment to penetrate dense foliage. Best results are obtained when wind speed is 5 MPH or less.

FLIES, CLUSTER FLIES, CLOVER MITES, MUD DAUBERS, AND WASPS: Apply mist directly on insects and their nests from approximately 18". Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Disperse into hiding and breeding places contacting as many insects as possible.

Application Instructions for Use in the Outdoor Insecticide Delivery System

May be used in the Skeeter Defeater™ Dispenser (sold separately).

- The Dispenser may only be used when mosquitoes are present.
- Always place Dispenser and remote out of reach of children and pets.
- Do not enter or allow adults, children, or pets to enter until vapors, mists, and aerosols have dispersed.

To Install

Follow the instructions included with the Dispenser (sold separately) to install the Cylinder Refill Unit in the Dispenser.

To Use

Use in open areas near buildings and in campgrounds. One Dispenser treats outdoor areas up to 300 ft². Multiple dispensers may be used to treat the entire outdoor area to be protected, but do not use more than one dispenser for every 300 ft² of outdoor area.

To kill **ADULT MOSQUITOES**, apply using the Skeeter Defeater Dispenser.

Hang the Dispenser 6 feet above the ground, out of the reach of children and pets, or place on a sturdy flat surface 5-6 feet above the ground, out of the reach of children and pets. Direct the nozzle to spray towards the target area, and away from swimming pools, water bodies, eating and cooking areas, windows, and doors. For best results, direct the nozzle downwind, and treat when wind velocity does not exceed 5 miles per hour. Application in the evening and/or early morning is recommended.

Set Dispenser in one of its three modes: "OFF" (Middle), "REMOTE ONLY" (left) and "DUSK/DAWN" + "REMOTE" (right).

OFF Mode

Place the 3-way power switch in the middle "OFF" position off whenever mosquitoes are not present or when winds exceed or may exceed 5 miles per hour.

REMOTE ONLY Mode

Place the 3-way power switch in the left "REMOTE ONLY" position to activate and dispense Skeeter Defeater™ insecticide for 4 seconds by pressing the remote button. Activate the Dispenser in the REMOTE ONLY position only when mosquitoes are present. When mosquitoes are present, dispense Skeeter Defeater insecticide by pressing the remote control at least two but no more than four times per day.
